## Tire & Wheel

Road Hazard Protection

Protection for the Next Millennium™

## Unlimited Tire and Wheel Replacement

You never know when you are going to encounter road hazards. Potholes, elevated manhole covers, rocks, metal and glass shards create a veritable minefield that today's drivers have to try to navigate through on a daily basis.

Compounding the problem is the fact that car makers are manufacturing more and more of their models with high performance tires and aluminum alloy wheels which cost hundreds, sometimes thousands of dollars to replace.

While it's not always possible to avoid road hazards, it is possible to avoid the costly repercussions. The Janus Tire and Wheel Road Hazard Protection Plan will eliminate this unexpected expense.

- ☆ Day one coverage
- ☆ Unlimited repairs or replacement of damaged tires
- ☆ Unlimited repairs or replacement of damaged wheels/rims
- ☆ Covers all of the ancillary costs of replacing a tire and/or rim such as mounting, balancing, valve stems, tire disposal fees and taxes
- ☆ No deductible and won't increase your automobile insurance premiums if used

Tire & Wheel  
Road Hazard Protection

## Curb and Cosmetic Wheel Repair Upgrade Option

Most tire and wheel companies specifically exclude damage from impact with curbs arguing that curbs aren't in the middle of the street thus impact with them isn't considered a road hazard. Tell that to anyone who has ever parallel parked or lives or works in a metropolitan area. With the Janus Curb and Cosmetic Wheel Repair Upgrade Option that is not the case since curb damage IS covered and your peace of mind is assured.

Most companies also don't cover cosmetic damage but keep in mind that not every impact with a road hazard blows a tire or makes a rim unserviceable, a lot of them just leave ugly scratches and gouges on beautiful aluminum rims. Cosmetic damage can be unsightly and significantly reduce the value of your vehicle but this plan will protect your investment keeping your vehicle looking as beautiful as the day you bought it.
